

Kings Court Project – 3807 Forbes Ave - 4,559 sq. ft. available in the heart of Pittsburgh’s University and Medical Center Community.

Entrance facing Forbes Avenue

North facing rear façade

Kings Court Project

The Kings Court project is Schwartz & Coyne Properties' sixth addition to its Oakland Technology Campus. Originally built in the 1890s as a police and fire station and later used as a movie theater, this iconic building has remained an Oakland landmark for over a century.

The state-of-the-art-space will feature a new three-story glass curtain wall offering panoramic views of University of Pittsburgh Medical Center and North Oakland. Certain tenant requested modifications to the space layout plan may be possible. Space will be fully ADA accessible.

Tenants are eligible to participate in the Keystone Innovation Zone which provides tax incentives to qualified companies. Leased parking is available. We welcome participation by the Broker community.
